

**Overview of product**

The probe type sensor is used as external temperature sensor for T24-DM series controllers.

**Specifications**

Model	TG-M10000
Sensing element	NTC thermistor, 10kΩ@25°C
Range	0...40°C
Protection class	IP65
Wire connections	Pigtails, 1.2m
Maximum length of connection wire	20m, wire size 0.4mm <sup>2</sup> or 22 AWG shielded twisted pair recommended
Ambient / storage temperature	0...50°C / -30...50°C
Agency approval	CE mark compliant
Shipping weight	0.1kg (0.22lb)
Dimensions	Refer dimensions diagram

**Resistance versus temperature for TG-M10000**

Temperature °C	Resistance Ω	Temperature °C	Resistance Ω	Temperature °C	Resistance Ω	Temperature °C	Resistance Ω
0	27280	11	17306	21	11672	31	8038

*The performance specifications above are nominal and subject to tolerances and application variables of generally acceptable industry standards.  
Belimo shall not be liable for damages resulting from misapplication or misuse of its products.*

**Dimensions in mm****Probe type temperature sensor TG-M10000****Notes**

1. Use 22 or 24 DWG twisted pair double insulated cable as remote sensor wire. Total wire length must not exceed 20m.
2. Do not bundle or run power wire and remote sensor wire in same conduit.
3. Run remote sensor wire away from any electric motors or power wire. Failure to do so may result in poor sensor performance due to electrical noise.
