

Activflo Pro is an Impressed Catalytic Water Conditioner that proves to be the perfect solution to hard water problems throughout industrial, commercial and domestic operations. The Activflo Pro is supplied as two separate components, a catalytic chamber and a power regulating pack.

The power regulating pack delivers a permanent electrical field to the chamber casing ensuring there is no fluctuation in output efficiency.

Turbulence in the water passing through the specially designed catalytic chamber allows calcium carbonate crystals (limescale) to be transformed into a smoother, non-adhesive crystal called aragonite.

## Features

- 15 Year Manufacturer's Warranty
- Life Expectancy In Access of 20 Years
- Help's To Maintain System and Equipment Efficiency
- Whole System Protection
- No Salts or Chemicals Required
- Quality Stainless Steel Housing

## Product Range

Description	Code
22mm Activ-Flo Pro Water Conditioner with Power Regulator	AFP22PR.1
3/4" Activ-Flo Pro Water Conditioner with Power Regulator	AFP34PR.1
1" Activ-Flo Pro Water Conditioner with Power Regulator	AFP10PR.1
1 1/4" Activ-Flo Pro Water Conditioner with Power Regulator	AFP14PR.1
1 1/2" Activ-Flo Pro Water Conditioner with Power Regulator	AFP112PR.1
2" Activ-Flo Pro Water Conditioner with Power Regulator	AFP20PR.1

## Technical Specification

Maximum Operating Pressure	16 Bar	
Maximum Operating Temperature	99°C	
Inlet Connections:	AFP22PR = 22mm	AFP34PR.1 = ¾"BSP
	AFP10PR.1 = 1"BSP	AFP14PR.1 = 1 ¼" BSP
	AFP112PR.1 = 1 ½"BSP	AFP20PR.1 = 2" BSP
